

Honoree Nomination Form

Advancing the Profession/Industry Influence – Challenging the norms, contributing to the thought process, pushing the envelope in terms of moving the profession/industry forward. Examples include serving as a mentor either within his or her individual organization or on a national, regional or local level outside of his or her individual organization; internal inservices for the C-suite on supply management; pioneering new concepts and ideas that may or may not become reality; influencing those up and down the corporate hierarchy on the benefits of and promotion of sound supply management.

Work Experience – Minimum 10 years of service within the healthcare supply chain (including a hospital or non-acute care facility, manufacturer, distributor, GPO, consulting or service company).

Work Performance – Specific accomplishments and achievements in their respective organizations, including expense management measures, committee involvement and management leadership.

Professional Activities – Minimum 5 years of active association participation (e.g., office holder, committee chair or contributor, organizing and running meetings, mentoring others) on the national, regional and local level; performed a minimum of two speaking engagements (national, regional, local, facility) and published at least twice (including writing an article or being interviewed by the trade media) during career.
