The Board of Directors and Advisory Council are working on these key projects:

1. With the announcement of the four-member *Future Famers Class of 2022* and the eight-member *Bellwether Class of 2022* last month, the BOD and AC shifted its focus to developing, planning and producing the *2022 Healthcare Supply Chain Leadership Forum* and the *15th Annual Bellwether League Foundation Induction & Recognition Event (BLFIRE15)*, both scheduled as in-person events at Marquette University, Milwaukee, on *Monday, October 3*. Registration and sponsorship opportunities are available and open online. Access them on the front page of BellwetherLeague.org or contact the office at rickdanabarlow@bellwetherleague.org. Mark your calendars and make travel arrangements now.

2. As a member of the Bellwether Community, you should have received a formal invitation, registration form and sponsorship form via email on August 16 that shared initial details about the afternoon and evening events. Please complete your form(s) and return via email to rickdanabarlow@bellwetherleague.org by September 1 so that we have you on record.

3. Please consider sponsoring BLFIRE15 in some way – whether that involves event tickets, the Forum, the VIP Reception, photography, videography, congratulatory messages in the event program, a row reservation in the auditorium or a donation. We welcome and appreciate all donations and sponsorships as funds cover the event expenses. **Please note:** The final deadline for event program Congratulatory Messages is Friday, September 2.

4. The *Forum* will take place in the late afternoon right before the *BLFIRE15*. At the Forum you will learn more details about our inaugural *Bellwether Philanthropy* division capstone project that features the work of students and faculty at the University of Michigan’s Center for Healthcare Engineering and Patient Safety (CHEPs) and Michigan Medicine’s Supply Chain Leader. We envision this project serving as the first of many to come as Bellwether League Foundation amps up its educational and professional development offerings to help the industry and profession strive for performance excellence. The capstone project report will be followed by a panel discussion titled, “Healthcare Supply
Chain Yesterday, Today and Tomorrow: Timeless truths throughout technology, tradition, transactions and turmoil.” We’ve recruited an intriguing line-up of retired veterans and active leaders that will explore a variety of relevant and useful topics.

5. We thank all the Sustaining Sponsors that are remitting their continuing support for this organization. We certainly appreciate sharing our mission and vision with our Sustaining Sponsor partners, some of whom have been with us since inception.
